

# *They're building a box... and you're in it*

Dave Patterson

DEC 07

*They're Building a Box and You're In It is about the takeover of Canada by capitalists/bankers working behind the scenes, through control of the government, money supply and media. Sounds crazy - but the arguments are persuasive.*

*The very worst dreams of the capitalists are realised in this small book - their Ozian wizard's curtain is pulled back and the very depths of their evil lying black souls revealed! The Truth is a fearsome thing indeed, to some ... Ann Ran*

*If you like your cubicle, keep away from this one, as visionary Patterson peels away the lies that have kept people slaving on the capitalist treadmill, and you cannot read this and understand what he is saying, and go back quietly to that galley oar tomorrow ... Green Island Voice*

*A call to arms for all who would be free of financial slavery and lying politicians and cold indoctrination...  
Chuwwezzidgel*
